USER INFORMATION

Suma Machine Dish Wash L46

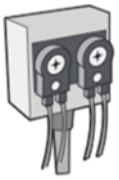
Dishwasher liquid

Product type
Strong alkaline dishwashing detergent. The product has the Nordic Ecolabel and meets the Nordic Ecolabel's environmental and efficiency requirements. For professional use only.

Area of use
For automatic dosing. Effective for all types of dishes and for all water qualities. Delivers shiny results. Should not be used on aluminium equipment. Do not use in dishwashers with washing time longer than 10 minutes.

How to use
Connects directly to the automatic dosing system, which ensures the correct dosing. Always use protective equipment when handling, which poses the risk of direct contact with the product.

Dosing
Normal dosing is 0,5-2 g per liter water.



Dosing

Each product container is connected to an integrated or external pump that automatically dispenses detergent into the machine during each wash cycle.

Remove empty container

NB! Wear recommended protective equipment. When the container is empty, unscrew and lift cork with riser attached.

Insert new container

Check the riser label and make sure you use the correct product. Unscrew jug cork and insert the jug cork with riser into new product container and tighten. Then put the new product container in jug basket/ or product shelf. Screw the jug cork onto empty product container and place the empty container in recycling.
