1.1 DISPENSER INSTALLATION NOTES

NOTE: SEE KEY DISPENSER DIMENSIONS BELOW (1.2). IF INSTALLING WITH Drip-Catch or Elbow Bar, SEE CRITICAL DIMENSIONS BELOW (1.5 Drip-Catch and 2.2 Elbow Bar)

1. Remove key from back of housing. (Reference ‘Key Location’ in section 1.2, below)
2. The dispenser should be mounted 12 inches (30.5 cm) above the counter-top, sink or other surface.
3. If replacing soap dispenser on wall, determine if any of the holes match up on the Sealed Air unit. Unit is designed to at least partially match numerous soap dispensers.
4. Mount the dispenser to wall using proper mounting hardware for your particular wall composition. Go to section 3.0 for specific dispenser mounting instructions.

NOTE: TAPE & SCREWS/ANCHORS ARE PROVIDED FOR INSTALLATION.

DISCLAIMER: If refills (Soap) used other than certified SA soap, SA is not responsible for any dispenser issues.

1.2 DIMENSIONS, KEY LOCATION, OPENING & CLOSING DISPENSER

"KEY OUTER DIMENSIONS OF DISPENSER : (H)10.24" [260MM] x (W)6" [152.4MM] x (D)4" [101.6mm]

OPENING COVER
- Insert key into holes on top of cover then pull cover forward.

CLOSING COVER
- To close the cover, simply PUSH the top of cover closed to ‘Click’ shut (b).

TO INSERT REFILL
- Push refill into place to ensure the FLANGE of the Soap Nozzle (c) is seated into the correct location (d). If not, the dispenser will not pump correctly.

TO REMOVE REFILL
- Pull the Container (e) and the Pump Housing (f). Please recycle accordingly.

**KEY LOCATION**
- Remove cover key (a) from back of housing.

**OPENING COVER**
- Insert key into holes on top of cover then pull cover forward.

**CLOSING COVER**
- To close the cover, simply PUSH the top of cover closed to ‘Click’ shut (b).

1.3 REFILL PLACEMENT & REMOVAL

1.4 DOSE SIZE CONTROL GUIDE

**To change dose setting, open dispenser cover and slide the red Dose Control Switch (a) to your desired dose size, Ensure you slide the Control Switch (a) ALL the way to the left or right.

HIGH DOSE SETTING
- SLIDE DOSE CONTROL SWITCH (a) TO THE LEFT for the HIGH Dose Setting #1.

LOW DOSE SETTING
- SLIDE DOSE CONTROL SWITCH (a) TO THE RIGHT for the LOW Dose Setting #2.

1.5 OPTIONAL Drip-Catch INSTALLATION

Insert drip catch hooks (a) through rectangular slots located at the backside of the dispenser. The Drip-Catch with SNAP into place.

NOTE: The Drip-Catch is not designed to be removed. However, if going to remove for cleaning please be careful not to damage the dispenser. The drip catch also might be damaged after removing.

DISCLAIMER: If other drip catch used, Sealed Air not responsible for damage.
2.1 ELBOW BAR INSTALLATION

**NOTE: ELBOW BAR CAN BE INSTALLED BEFORE OR AFTER DISPENSER IS AFFIXED TO WALL.**

---

**no.1** Unlock and open Manual Dispenser cover (1A).

**no.2** Remove Refill Bottle (2A) from Dispenser.

**no.3** Use a drill with a 9/32" (7 MM) bit to bore a hole in to the 2 pilot holes (3A) located on the inside left and right sides of the housing unit.

**no.4** Insert the Elbow Bar ends (4A) in to each of the holes from the outside. NOTE: COTTER RINGS (5-1 & 5-2) ARE OPTIONAL.

**no.5-1** Insert Cotter Rings (5A) through Elbow Bar holes (5B).

**no.5-2** Cotter Ring (5A) correctly installed close up view.

**no.6** Lift up the elbow bar to a vertical position (6A). Re-install the Refill bottle (6B) before closing the dispenser cover (6C).

**no.7** To complete the installation, lower the Elbow Bar (7A) so that it rests in place on top of the Push Lever.

---

**NOTE: To replace refill, you must LIFT up the Elbow Bar (similar to 6A) first, then UNLOCK and LOWER the COVER.**

After replacement of refill, CLOSE cover FIRST (6C) before lowering the Elbow Bar (7A).

---

3.0 DISPENSER MOUNTING INSTRUCTIONS

1. Ensure the Key is removed from the housing. See Step 1 under 3.1 Below.
2. The dispenser should be mounted 12 inches (30.5 cm) above the counter-top, sink or other surface.
3. If replacing soap dispenser on wall, determine if any of the holes match up on the Sealed Air unit. Unit is designed to at least partially match numerous soap dispensers.
4. Mount the dispenser to wall using proper mounting hardware for your particular wall composition. See 3.1 (Tape Mounting Instructions) and 3.2 (Screw Mounting Instructions)

**NOTE:** Tape can be used effectively for installations on mirrors and tile.

### 3.1 TAPE MOUNTING INSTRUCTIONS

**STEP 1**

*IMPORTANT

*Ensure key (a) removed.

**STEP 2**

**c.**

Step 2: Remove the white paper from the one side of the Tape (b).

Place the tape pad within the area indicated by the black dotted lines (c), as shown in the illustration above.

**STEP 3**

Step 3: Remove the red backing from the tape. Ensure that the dispenser is in a level position on the wall, open cover and press the dispenser firmly for 15 to 20 seconds to allow it to properly adhere to wall.

It’s recommended to let the dispenser set up for 24 hours before installing the refill.

### 3.2 SCREW MOUNTING INSTRUCTIONS

**STEP 1**

**STEP 2A**

7/32" (6 MM) Drill Bit

**STEP 2B**

Step 2B: Insert anchors into all three holes.

**STEP 3**

Step 3: Insert the washers over the screws and then use a screwdriver to insert the screws in to the anchors and tighten the dispenser securely against the wall.

*IMPORTANT:

- Step 2B: Insert anchors into all three holes.
- Step 3: Insert the washers over the screws and then use a screwdriver to insert the screws in to the anchors and tighten the dispenser securely against the wall.
- 7/32" (6 MM) Drill Bit
- Ensure proper mounting hardware is used for your particular wall composition.

**NOTE:** Tape can be used effectively for installations on mirrors and tile.
